

# **VITRIFIED PORCELAIN MOSAICS**

## **Product Features**

- Mosaics have been used for hundreds of years and provide a versatile range of colours, borders and patterns to suit commercial and residential situations.
- Suitable for both heritage/traditional settings and modern/contemporary styles
- Vitrified porcelain mosaics are available in 25 x 25mm squares and hexagons
- Special patterns can be made to order
- Mosaics are supplied in a sheet format
  - with a paper-face, or
  - with a net-backing
- Ideal for curved surfaces

## **Areas of Use**

- All indoor residential applications for walls and floors
- Light and heavy commercial application for walls and floors
- External areas including wet areas ie pool surrounds, pool interiors
- Pathways and verandahs

## **Cleaning & Maintenance**

- **Step 1** After the tiles have been laid, acid wash to remove all excess grout and cement from surface (Spirit Phosphoric Acid Cleaner).
- **Step 2** Rinse the floor thoroughly with a neutral cleaner (Spirit Neutral Cleaner).
- **Step 3** A penetrating sealer can be applied to further protect the tiles from both oil and water-borne contaminants. This step is optional.
- **Step 4** Wash and rinse regularly with a suitable cleaning agent and scrubbing brush or broom. We advise the use of cleaning products that have been manufactured for use on vitrified porcelain mosaics as they are far more effective. (We suggest Spirit Neutral Cleaner, or for a more powerful cleaner, Spirit Heavy Duty Cleaner).

## **Laying Requirements**

- Do not use oxides to colour grout, as these can cause staining
- Always refer to an expert when tiling

## **Technical Data**

- Fully vitrified porcelain
- Water absorption 0.16%
- Fired at extremely high temperatures of approximately 1250 °C
- Resistant to acid, alkaline and chlorine
- Resistant to household chemicals (except for those containing HF)
